

## *Breakfast Networking With the Chamber*

Brand new to our 2018 calendar, the Chamber will offer a networking breakfast every other month for those early-bird members and prospective members. Gourmet breakfast will be catered for those who attend. As far as the program, there will be a sponsored speaker and a local keynote speaker, as well as announcements for any legislative updates, chamber updates and recognition of our New Members.

The keynote speakers will be speaking about a different topic each breakfast, so come out to learn something new every-time! After listening to the keynote during your breakfast, if there is a topic you would like to delve into deeper, there will be a training course available with the keynote for a hands on approach to learning the most for your business!
